Observation	Recommendations	Responsibility	Completed	
Immediate Priorities. Resolve within 7 days.				
1	None identified			
High Priorities. Resolve within 1 month				
2	<p>A new 'food preparation area' has been created in the dining room. This has yet to be completed as wall tiling is outstanding. Staff prepare food for residents in this area.</p>	<p>The preparation of food where there is a risk of paint flakes and other debris entering the food chain is of a very high risk. Covering should be placed over the wall surface in this area until the work can be completed.</p> 		
Medium Priorities Resolve within 3 months				
3	The cooker hood in the kitchen has not had a deep clean since 2016.	The deep clean will include the flue from the filters to the outlet. Grease can build up in this area presenting a fire hazard. The annual deep clean will reduce the risk of fire.		
Low Priorities. Resolve within 6 months
